

ARTHUR AZOULA

Backend Developer

Portfolio | arthur2504azoula@gmail.com | Lille, France

SUMMARY

Junior Backend Developer with experience contributing to event-driven architectures and high-traffic platforms. A curious and unifying team player driven by continuous learning and performance optimization.

WORK EXPERIENCE

Backend Developer (Apprenticeship)

ADEO (Leroy Merlin) | Ronchin, France | Sept 2024 – Sept 2026

Part of the "Available To Promise" (ATP) team within the Order Management System (OMS)

- Contributed to the redesign of the delivery allocation algorithm (migrating to a concurrent model), which helped reduce P95 response times by 50%.
- Led the technical scoping and backend integration for the new "2P" marketplace model, updating REST APIs and MongoDB schemas.
- Maintained and developed asynchronous data flows using Apache Kafka to keep real-time inventory and logistics data synchronized.
- Wrote end-to-end (E2E) integration tests using Cucumber to ensure system reliability in an Agile/Scrum environment.

Backend Developer (Apprenticeship)

Faceel-IT | Wasquehal, France | Jan 2024 – Sept 2024

Developed a SaaS enterprise platform focused on mentorship, professional training, and client tracking, working in a close-knit team (2 developers, 1 UI/UX designer)

- Developed core backend services and APIs for a corporate SaaS platform, ensuring seamless integration with frontend components.
- Implemented the backend logic for a mission-tracking system, facilitating structured interactions and follow-ups between clients and internal teams.
- Collaborated closely with the UI/UX designer and the frontend developer to iterate rapidly on user needs and deliver a centralized intranet portal.

EDUCATION

Master of Science (MSc) in AI & Data Engineering

Epitech | Lille, France | Sept 2023 – Sept 2026

- Student Ambassador: Actively participated in Open Days (JPO) and immersion days to guide and mentor prospective students.

Bachelor's Degree (Licence 3) in Computer Science

Université de Lille | Lille, France | Sept 2022 – Jul 2023

Two-Year University Degree (DUT) in Computer Science

IUT de Reims-Châlons-Charleville | Reims, France | Sept 2020 – Jul 2022

SKILLS & INTEREST

Technical Skills

- **Backend & Data:** Java, Spring Boot, Apache Kafka, MongoDB, Postgres
- **Tools & Front:** Docker, Git, Cucumber, JUnit, Agile, React, Vue

Interests

- Tennis competitor
- Road trips (Cinque Terre Italia)
